THE PLATFORM.

all imports coming to compete with the pro-quets of American labor there should be levied ductes of American labor there should be levied duties equal to the difference between the wages abroad and at home. We assert that the prices of manufactured articles of general consumption have been reduced under the operations of the tariff act of 1889.

"We denounce the efforts of the Democratic majority of the house of representatives to destroy our tariff laws by piecemeal as manifested by their attacks upon wool, lead and lead ores, the chief products of a number of states, and we ask the people for their judgment thereon.

states, and we ask the people for their judg-ment thereon.

"We point to the success of the Republican points of reciprocity, auder which our expet trade has vastly increased and new and en-singed markets have been opened for the pro-ducts of our farms and workshops.

"We remind the people of the bitter oppo-sition of the Democratic party to this practical business measure and claim that as executed by the Republican administration our present laws will eventually give us control of the trade of the world.

by the Republican saminatration our present laws will eventually give us control of the trade of the world.

"American people, from tradition and interest, favor bi-metalism, and the Republican party demands the use of both gold and alliver as standard money, with such restrictions and in der such provisions to be determined by legislation, as will sente the maintenance of a parity of values of the two metals; that the porchasing and bist paying power of the dollar, whether of silver, gold or paper, shall be at all times aqual. The interests of the produces of the country, its farmers and its workingmen demand that every dollar, paper or coin, issued by the government, shall be as good as any other. We commend the wise and patriotic steps already taken by our government to secure an international conference to adout such measures as will insure a parity of values between gold and silver for use as money throughout the world.

"We demand that every citizes of the United States shall be allowed to east one free and unrestricted bailot in all public elections, and that such bailot shall be counted; that such laws shall be eacted and onforced as will secure to every citizen be be rich or near

and that such ballot shell be counted; that such laws shall be _acted and onforced as will secure to every citizen, be he rich or poor, native or foreign born, white or black, this sovereign right guaranteed by the constitution, a just and honest popular ballot, just and equal representation of all people, as well as their just and equal protection under the laws. These are the foundation of our Republican institutions, and the party will never relent its efforts until the integrity of the ballot and the purity of elections be fully guaranteed and protected in every state.

We donounce the continued inhuman outriges perpetrated upon American citizens for political reasons in certain southern states of the union. We layor the extension of our foreign commerce, the restoration of our mer-

oreign commerce, the restoration of our mer-bant marine by home built ships and the crea-lion of a navy for the protection of our ma-imalizatorests and the honor of our flag, the maintenance of most friendly relations with all foreign powers; entanging alliance with home and the protection of the rights of our laborates.

"We reaffirm our approval of the Monroe doctrine, and believe in the achievement of the manifest destiny of the republic in its

We favor the enactment of the most strinwe have the enactment of the most stringent laws and relations for the restriction of cripinal purper and contract labor.

"We favor an efficient legislation by congress to protect the life and limb of employes of transportation companies sugaged in carrying failers to commerce, and recommend legislation by the respective states that will protect employes in state commerce in mining and manufacturing.

transportation companies engaged in carrying talersts's commerce, and recommend legicia tion by the respective states that will protect employee in state commerce in mining and manofacturing.

"The Republican party has always been the champlen of the oppressed and recognizes the champlen of the oppressed and recognizes the dignity of manbood irrespective of faith, color or nationality. It sympathics with the cause of bome rule in Ireland and protests against the persecution of the Jews in Russia,

"The utilinate reliance of free popular government is the integrity of the people and the maintenance of freedom among men. We therefore declare anew our devotion to liberty of thought and conscience, of speech and press and approve all the agencies and instrumentalities which contribute to the education of the children of the land. But while mainting upon the fullent measure of religious liberty, we are opposed to any union of church and state. We reaffire our opposition declared in the Republican platform of 1888 to all combinations of capital examined in trusts or otherwise to control arbitrarily the condition of frade among our extreme. We heartily independent to remedy any defects in existing laws and render their enforcement more complete.

We approve the policy of extending to towns, villages and rural communities the free desivers service now enjoyed by larger cities of the country and reaffirm the declaration contained in the Republican platform of 1888, plenging the reduction of later postage to it cent at the sarliest possible moment, consistent with the maintenance of the postoffice depart ment and the highest class of postal service.

"We commend the optiti and evidence of reform in civil service and the wise seed one

sistent inforcement by the Republican party of the laws regulating the same.

"The construction of the Nicaragua canal is of the highest importance to the American people, and as a measure of national defense and to build up and maintain American commerce, and it should be controlled by the United States government.

"We favor the admission of the remaining territories at the earliest possible date, having due regard to the interest of the people of the territories and of the United States. All federal officers appointed for territories should be selected from bona flag residents thereof, and the right of self-government should be accorded as iar as practicable.

"We favor cession, subject to the homestead laws, of the arid public lands to the states and territories in which they in, under such congressional restrictions as to disposition and occupancy by settlers as will secure the maximum benefits to the people.

"The World's Columbian expection is a national underlaking and congress should promptly enset such reasonable legislation in all thereof as will insure the discharging of the expense and obligations incident thereto and the attainment of the results commensurate with the dynity and progress of the nation.

"We sympathize with all wise and legitimate efforts to lessen and prevent the evils of intemperance and promote morality.

"Ever mindful of the services and accrifices of the men who saved the life of the union, we pleade a niew to the veteran soldiers of the republic watchful care and roosgnition of their just claims upon a grateful people.

"We commend the able, patriotic and thoroughly described in the progress of the republic watchful care and roosgnition of President

public watchful care and recognition of their just claims upon a grateful people.

"We commend the able patriotic and thoroughly American administration of President Harrison. Under it the country has enjoyed remarkable pr sperity and dignity and honor at home and abroad has been faithfully maintained, and we offer the record of pledges kept as a guarantee of faithful performance in the future."

WILL SUCCEED HIMSELF.

The nomination of President Harrison commands the warm approval of the intelligent masses of the Republican party. The Republicans will enter the conflict with the prestige of victory. The Democrats must labor under the precident of defeat. Benjamin Harrison carried New York against Grover Cleveland in 1888. He carried Indiana against him. The president has strengthened himself and party in the three years by his masterly conduct of public affairs. Business men all over the Union have had full confidence in his sagacity and indomitable integrity.

The administration has been the bulwark of protection. It has maintained American rights with a courage and skill that have won new respect for the United States among foreign governments. With this record of triumph Constipation, for fifteen years; to his credit, and with a loyal, harmonious party behind him, President Harrison, who was strong in 1888, will be stronger in 1892.

Whether the Democrats nominate the once beaten Cleveland or some other figurehead, they must fight on the issues of four years ago. The Nation gave its verdict on these issues then. "ing me of those disagreeable Four years of prosperous development ... stomach pains which I had been have followed. That verdict, whose wisdom has been so fully confirmed by experience, will not be reversed. President Harrison will succeed himself.

MR. BLAINE'S WORDS.

ovember.

The spirit of true patriotism and true Republicanism breathes in these words. Mr. Blaine can do more than any other man in the country to give effectiveness to his own appeal for united effort. His appearance in the campaign will rally to the Republican standard all of his active supporters and we may expect to see all sections of the party harmoniously and zealously enlisted in a struggle to perpetuate for four more years the splendid policy which has marked the administration of Presi-Harrison.

Evidently, from the above, the Herald has bolted the Republican ticket, so far trains over A. T. & S. F. to Oklahoma, as the vice-presidential nominee is concerned.

Norwithstanding the efforts of the Democratic press to make it appear that there is no enthusiasm over the formation relative to cost of tickets, nomination of President Harrison, the route to take, etc. fact remains that, with but few exceptions, there has never been more generai satisfaction at the work of a National convention.

Europe did not do so. Cotton has been lower recently than ever before, while the breeders of food animals have been grievously disappointed in the season's results.

What is the reason? It is certain that the retail dealers in farm food products do not become rich any faster than they did formerly. It is also certain that consumers in cities pay for nearly everything as much as they ever did. The senate committee will examine into They are beauties. All Styles and all every cause that has a possible bearing on the present depression.

They will look into grain gambling and speculation in agricultural products of all kinds, ascertaining if perhaps this speculation keeps prices down. They will study methods and prices of transportation, cost of lands, machinery and tillage and the fees of middlemen. Diversified farming and the improvement of cultivation both as to increasing crops and diminishing their cost of production will come under the microscope, as will also irrigation as a factor in increasing crops. Both during the sessions of congress and during the recess this senate agricultural committee will patiently continue the endeavor to find out who it is that grows richer while the farmer grows poorer.
